

Graham Blakey

Clinical pharmacology and pharmacokinetics consultant

Location: Nottingham, United Kingdom

Industry: Pharmaceutical Development

Testimonials Feedback from our clients

'Good basic introduction to PK, plenty of intervals to ask questions as course proceeded, generally good clear slides.'

PK course participant, UK

'I have been impressed by his knowledge, experience and professionalism. We have worked together on many projects and he has always provided work of a high quality within the required deadline. He has been open to discussion, quick to respond to any concerns and a pleasure to work with.'

UKR Regulatory Affairs

"Graham is a thoughtful, experienced and thorough clinical pharmacologist. It was my pleasure to employ him as a consultant for a number of early development projects. Without fail, Graham quickly grasped the tasks required, assigned credible investigational plans - including study design and prosecution, and supplied excellent clinical pharmacology leadership. I wholeheartedly recommend him." *November 11, 2011*

*Alex Phipps, Director,
Research Clinical Pharmacology, Pfizer
managed Graham at GBPK Consulting Ltd*

"Very flexible and able to meet needs at short notice"
November 8, 2011

*Top qualities: Expert, On Time, High Integrity
Helen Shaw, Director at Zilico
hired Graham as a pharmacology consultant in 2010*

"I have used Graham on many projects over the past three years, and have got to know, like and respect him over this period. He combines deep subject matter expertise with a friendly attitude, and always delivers on time. His communications are to the point, and appreciated by clients." *February 14, 2011*

*Top qualities: Personable, Expert, On Time
Axel Krebs-Brown, hired Graham as a PK Expert in 2008*

"Graham provided two training modules for the company as an introduction to bioequivalence and Pharmacokinetics. He has advised the company on BE."
October 15, 2009

*Top qualities: Expert, Good Value, On Time
Janet Worrell, hired Graham as a pharmaceutical consultant in 2008,
and hired Graham more than once
